**Grades:** PreK-8

**Demographics (%)**

Caucasian: 80

Asian: 3

Indian: .5

African American: 11

Hispanic: 6

Other: .3

**Buildings:** 2

*Building Name*

Shiloh Elementary

Shiloh Middle

*Principal*

Rachel Rosier

Jeff Alt

**Building Construction Update:** Currently we do not have any construction occurring other than typical maintenance items (replacing certain sections of the roof, replacing sheds, HVAC system, etc.)

**Health, Life, Safety Projects:** Same as above. Many of the typical maintenance items are part of health life safety improvements.

**Teachers:** 46

**Support Staff:** 35

**Tax Rate:** 3.2113

**EAV:** 86,671,039

**Financial Profile:** Recognition

**Special Ed Profile:** Recognition

**2010 ISAT District Results:**

*Attendance:* 95%

*Reading:* 88%

*Participation:* 100%

*Math:* 93

*Science:* 92

**Curriculum and Instruction Initiatives:** Currently we are implementing strategies to both assist our struggling students as well as challenging our excelling students. We are accomplishing this through differentiated instruction units, response to intervention services as well as services through gifted instruction. Our teachers strive to meet individual needs so that all students can excel.

In addition, the district has been committed to making sure that our students have access to top notch technology. We continue to outfit the classrooms with smart boards, lap tops, new desktops. In addition, we are promoting the use of technology through podcasting, interactive websites, lesson creation, etc.

**5 Year Financial Projection:** Because of the uncertainty of the state, it is difficult to make financial projections for the next five years. Currently, we are doing okay and continuing to offer services and programming to meet our students' needs. At this time, we are not anticipating programmatic cuts due to the financial situation.

**Capital Improvement Plans:** In the next five years it is anticipated that the elementary school will need a roof replacement. Our middle school has room to grow but as our elementary population increases the district may be required to consider options of housing the students.

**Other Comments:** The district is very proud of the programs that we offer and the ability to continue to have small class sizes during the current financial problems of the state.
