

Candidate Biographical Info | 2025

Full Name:	Jasen Foster
Email	jasen.foster@gmail.com
Is this your first time running for public office?	<input type="button" value="Yes"/>
If not, how many terms in current/previous offices?	n/a
What position are you running for?	O'Fallon School District 90 board member
Current Profession/Occupation	Assistant Principal
Please list public offices previously held:	n/a

In 300 words or less, please tell us other information you'd like the public to know about you. This is not required, but you may want to address: 1. The most significant challenges facing the office you're seeking and what you'd do to overcome them. 2. What single change you'd make in your area of responsibility. 3. Why you feel you're more qualified than your opponent(s)

My name is Jasen Foster. I am currently working as an assistant principal in the Hazelwood School District. I have worked in the education field for 21 years. My experience in education spans from the elementary to the middle school level. I have been married for 21 years and have two daughters that are attending O'Fallon schools. One in district 90 and the other in district 203.

In my opinion, District 90 is being ran incredibly well by the superintendent and current board members. The biggest challenge at this time would be to organize finances and to continue to ensure that the district is being fiscally responsible. There would not necessarily be any one singular change that I'd look to make. But I would always make sure that every decision that I made would be made in the best interest of the students of district 90. I feel that I am more qualified than my opponents because of my 21 years in the field of education. Within those 21 years I have worked in school administration for ten of them. For three years I worked very closely with my school board as a building principal. I feel that this specialized experience in school administration has given me the experience and insight to work on and with a board of education, and make justified, sound, and data-driven decisions when it comes to district 90.
